

A110 / LIMITED EDITION - 100 UNITS

100 YEARS →  
→ J. RÉDÉLÉ

ALPINE  

In 2022, Alpine celebrates the 100<sup>th</sup> anniversary of Jean Rédélé's birth by unveiling a unique version of the A110 GT, limited to 100 examples, celebrating the legacy and vision of its charismatic and visionary founder.

**100 YEARS** ———→  
———→ **J. RÉDÉLÉ**

The exclusive combination of the high-gloss black roof and the Montebello Grey heritage colour, favoured by Jean Rédélé, but also that of the very first first Alpine sold in January 1963, reflects the spirit of Alpine Grand Touring. The A110 GT J. Rédélé embodies the elegance of the founder and his attention to detail, while also perpetuating the lightness and agility at the heart of Alpine's DNA. Like the first A110, the A110 GT J. Rédélé is designed and assembled in the Jean Rédélé factory in Dieppe.

Based on the GT version, this A110 is ideal for everyday use thanks to the particular care given to comfort and elegance. The Grand Prix wheels with silver calipers add dynamism to this exclusive edition. Inside, a refined atmosphere, with Sabelt® comfort bucket seats with grey stitching, which can also be found on the dashboard, the centre console and the steering wheel marked with an embroidered 12 o'clock line in the same colour.

Limited to 100 models, this exclusive limited edition encapsulates the passion for motorsport "à la française" on every road, that Jean Rédélé summed up in two words: "La gagne".

**100 YEARS** —————>

Turning circle between kerbs	11.4 m
Brakes	Compact aluminium brake calipers with integrated parking brake
Front brake disc diameter	320 (mm)
Rear brake disc diameter	320 (mm)
Front tyres	205/40 R18
Rear tyres	235/40 R18

### Weight

Min. Kerb weight (min-max)	1,119 kg-1,140 kg
Gross vehicle mass	1,360 kg

### Performance

Maximum speed	155 mph
0-62 mph	4.2 s
0-1000 m	22.4 s

### Consumption / emissions

CO <sub>2</sub> emissions (WLTP) <sup>(1)</sup>	154-160 g/km
Fuel tank capacity	45 l
Fuel consumption	6.8 - 7 l/100 km

(1) WLTP figures shown are for comparability purposes; only compare figures with vehicles tested to the same technical procedures. Actual real world driving results may vary depending on factors such as weather conditions, driving styles, vehicle load or any accessories fitted after registration. WLTP is a new test used for fuel consumption and CO<sub>2</sub> figures however until April 2020 the CO<sub>2</sub> figures are based on the outgoing (NEDC) test cycle which will be used to calculate vehicle tax on first registration. Please contact your Alpine Centre for WLTP figures for any selected options. Renault UK Limited t/a Alpine does not offer tax advice and recommends that all Company Car Drivers consult their own accountant with regards to their particular tax position
