

# Dacia Logan MCV Stepway

A good thing, **made even better**

# An all-round great experience

Roomy and racy? Sturdy and stylish? Rugged looks and real comfort? You might think you're expecting too much from one car, but we're not fazed. In fact we've built it, and it's called the New Dacia Logan MCV Stepway.

As well as a raised ride height, it really raises the bar for what an affordable car can do.

First you'll notice its cool SUV stylings, like chrome skid panels, rugged honeycomb grill and roof bars. Then there's its best-in-class interior space, offering plenty of room for all your family, pets, luggage and even the kitchen sink (if that's your thing). As if that wasn't enough, it's shockingly affordable to boot.

## A little more about **our range**

Dacia fully supports the introduction of the new emissions testing procedure, called 'Worldwide Harmonised Light Vehicle Test Procedure' (WLTP). WLTP represents a positive change to provide consumers with fuel economy and emissions data which is more representative of the results you may achieve in real life.

# Off-road spirit, **on-road performance**

How do you make a good thing better? We took our already pretty impressive New Dacia Logan MCV and gave it something extra special.

The result is a great mix of style and substance, whether you're cramming it to capacity with camping gear or cruising to the cinema with the kids.

With 16" wheels, new headlights with LED daytime running lights, a restyled rugged grill and raised ride height, you'll feel in charge wherever you go.

Throw in the 7" **MediaNav touchscreen navigation**, cruise control and rear parking sensors. And you'll find it a dream to drive.

It's economical too. The dCi 90 diesel engine reaches 4.7 (l/100km)\* on the combined cycle. So while it looks ready to take on the world, it needn't cost you the earth to run.

16" 'Stepway' Design Wheels

16" 'Flex Stepway Style' Alloy-look Wheels

\* Figures are obtained for comparative purposes in accordance with EU Legislation and may not reflect real life driving results.

# A comfortable **space**

The Logan MCV Stepway isn't just better on the outside. The interior is pretty special too. After all, it's what's inside that counts.

The **573 litre boot** capacity grows to an impressive 1,518 litres with the back seats folded flat. How's that for roomy? Shopping, suitcases, pets, cheeky little monkeys (AKA kids)...they'll all fit comfortably in.

Then there's the snazzy new upholstery, air vents and steering wheel. Fancy.

There's also **air conditioning**, remote central locking, electric windows throughout and more satin chrome surrounds than you can shake a stick at.

Of course, looks mean nothing without safety. So we've made it a priority. ABS, height-adjustable head rests, airbags and Electronic Stability Control (ESC) are all there for you and your family's peace of mind too.

# The engine room

## Reliable power to fuel your adventures

Whether you're putting the Logan MCV Stepway through its paces or picking the kids up from school, you can relax every time you turn the key. All our engines are rigorously tested, over an impressive 800,000 kilometres of test driving.

## Pick the engine for your lifestyle:

- The turbocharged TCe 90 engine offers more performance.
- Produces 90 hp from its 3-cylinder, 898cc engine, yet still achieves CO<sub>2</sub> emissions of 145g/km\*.

For ultimate fuel efficiency and low CO<sub>2</sub> emissions, try the Blue dCi 95 diesel engine.

\* WLTP figures shown are for comparability purposes; only compare figures with vehicle tested to the same technical procedures. Actual real world driving results may vary depending on factors such as weather conditions, driving styles, vehicle load or any accessories fitted after registration. WLTP is a new test used for fuel consumption and CO<sub>2</sub> figures however for 2019 the CO<sub>2</sub> figures are based on the outgoing (NEDC) test cycle which will be used to calculate vehicle tax on first registration available at your local dealer.

† Genuine leather on central section; synthetic leather on side bolsters and rear.

## Blue dCi Engines

Logan MCV Stepway benefits from the latest Blue dCi diesel engines which are equipped with a system to reduce polluting Nitrogen Oxide vehicle emissions by injecting an urea based fluid, AdBlue®, into the exhaust system. A dashboard message will remind you when the AdBlue® needs topping up via specific AdBlue® filling cap located next to the usual diesel filler cap. A full tank of AdBlue® will last 6 full tanks of diesel.

# We've got you covered

You might think our shockingly affordable prices mean our cars aren't made to last. Actually, the Duster is one tough cookie. To prove it, you get a 3-year\* warranty (or 100,000 km, if you reach that first). This means we'll repair or replace any defective parts for free. To keep the good times rolling, you can extend your warranty up to 5 years for a great price.

We also give you a 2-year paintwork and 6-year anti-corrosion warranty, so you can kick back knowing that your Duster will stay looking good-as-new for years to come.

## Roadside assistance

Although our cars are built for plain sailing, you can rely on us if you have a breakdown – 24/7 365, wherever you are in Europe. This offer also stands for the first 3 years/100,000 km<sup>Δ</sup> after you buy your new Dacia.

## Servicing

Just like most cars, you need to get your Dacia serviced every year (or 20,000 km if that comes first).

When the time comes, your local Dacia workshop is the place to go. With us you always get Dacia-trained experts, and original Dacia parts with a one-year warranty.
