ELECTRIC MOBILITY FOR ALL

As forerunners of electric mobility, Renault benefits from a decade's experience in the design, manufacture, sales and after-sales servicing of electric vehicles. Renault was the first to believe in 100% electric mobility and continues to lead the way today. Our electric cars remain the most prevalent on European roads, totalling over 20% of all electric vehicles driven throughout the continent. The ZOE remains the best-selling car in Europe and, worldwide, the Group has already sold more than 300,000 electric vehicles.

Today, Renault offers one of the largest choices of electrified models. From the fully electric ZOE capable of up to 239 miles of electric range, to the technologically advanced CLIO, CAPTUR & ARKANA E-TECH Hybrid and CAPTUR Plug-in Hybrid offering low running cost, reduced tailpipe emissions and improved driving experience.

With electric, hybrid and plug-in hybrid options on our most popular models, you now have more choice than ever, wherever you are on your journey to full electric mobility.

Please speak to your local Renault dealer to try our latest electric and hybrid products.
