

ULTIMATE PAINT PROTECTION

Protect against the harshest of environments

PROTECTION YOUR CAR DESERVES

Keep your beautiful new vehicle
looking newer for longer...

Any car purchase is a major investment and we believe that it is worth protecting.

Washing will go some way to safeguarding your car's shine, but it is worth thinking about whether you can regularly commit to caring for your car.

Ultimate Paint Protection has been developed to not only protect the paintwork of your vehicle and help to keep it in showroom condition for years to come, but also take the hassle out of maintaining your car's:

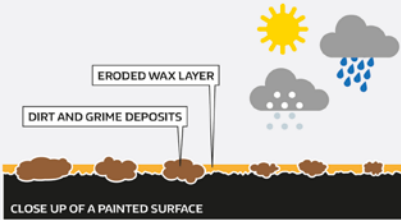

- Alloy wheels
- Grills
- Mirrors
- Windows
- Lights

Ultimate Paint Protection has been tested and approved globally, for cars and vans alike, as well as the Formula 1 Renault team. It will help to deal with all climate conditions, keeping your car looking newer for longer.

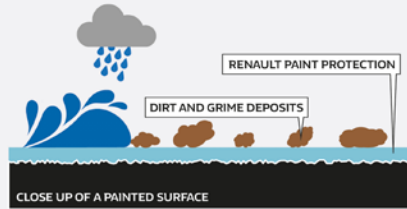

WHAT YOU NEED TO KNOW...

Unprotected

Wax on the surface is eroded by heat and rain. Dirt and grime become embedded in the paint surface making it difficult to remove. Tiny peaks and troughs hold the dirt within the paint.

Protected

Ultimate Paint Protection smooths and protects the surface with a layer of ceramic coating. Dirt and grime now sit on the protected surface, unable to bite into the paint and runs off easily when wet.

How will it protect my car?

Ultimate Paint Protection Glasscoat is a liquid glass hardened ceramic protection system, which forms an invisible, but substantial barrier against dirt, acid rain, car wash brushes, bird matter and oxidation of your paintwork.

Ultimate Paint Protection Fusion is a unique gloss enhancing titanium oxide coating, which includes colour durability enhances.

Ultimate Paint Protection will not only protect your paintwork but it can also be applied to your alloy wheels to keep them looking shiny. There is no need to reapply. When the car needs a clean, just use the products from your specifically designed aftersales kit to do so, keeping the cars maintenance level minimal.

Ultimate Paint Protection only needs to be applied once and then you can forget it's there altogether. The only reason you will know your car is protected will be down to the minimal amount of cleaning your car will need once applied.

Can you protect the inside?

Ultimate Paint Protection also protects the upholstery of your car, covering seats, carpets and mats.

QUESTIONS & ANSWERS

Q Do I need to have Ultimate Paint Protection reapplied every year?

A No, Ultimate Paint Protection Glasscoat is guaranteed for 5 years and Ultimate Paint Protection Fusion is guaranteed for 3 years. It is truly 'fit and forget' for all customers. No need for re-application and inspection hassles.

Q How often should I clean or polish my car?

A There is no need to polish your vehicle for the length of guarantee once Ultimate Paint Protection has been applied. Just take reasonable care of your car and wash it when it's dirty with a mild shampoo. The complementing Car Shampoo can be found in your aftersales kit.

Q Can I use any shampoo on my car?

A Yes, but we recommend using the Car Shampoo that comes within your aftersales kit, designed specifically to complement Ultimate Paint Protection.

Q Can I use a car wash or hand wash centre?

A Yes, a well maintained car wash / handwash centre will not in any way affect the advanced Ultimate Paint Protection coating.

Q How quickly should I remove bird droppings?

A As soon as possible before deposits become dry and baked on. If you find any baked on deposits, repeatedly soak the droppings using a Bird Dropping Remover and the deposits will simply ease off. Don't aggressively scrape off dry droppings as this could damage you paintwork.

Q Do I have to pay for Ultimate Paint Protection again if my car is involved in an accident?

A In the event of an accident the product can be reinstated on paintwork, alloy wheels, glass sunroofs, side windows and door mirrors by your Approved Accident Repair Centre as part of your insurance claim.

Q Will my investment in Ultimate Paint Protection benefit me in other ways?

A As you know from experience, a great looking car will in most cases, demand more money in the market when sold, so therefore Ultimate Paint Protection is an investment.

Q Why are the front and rear windscreens not applied with Ultimate Paint Protection?

A Due to the complex sensors on the screens it is not recommended.
