accessories

designed to make your life easier

Dynamic and elegant, the exterior design of Renault Trafic Van E-Tech is functional above all else. Its sharp angles optimise loading and make it more practical, and its configuration more straightforward.

The 100% LED C-Shape headlamps allow for better night vision. Its electric folding door mirrors with built-in signal repeaters make your manoeuvres completely safe.

[configure and order →](#)

optimal loading space

With its record loading length of 4.15 m⁽¹⁾ using the ingenious load-through facility⁽¹⁾ under the passenger bench seat and its 270° opening doors⁽²⁾, you can combine versatility with practicality.

4.15m loading length thanks to the flap under the passenger bench seat⁽¹⁾

The loading volume of up to 8.9 m³ means you have plenty of space for everything you need: tools, supplies, bulky items, rubble, and more.

8.9 m³ of load volume⁽¹⁾

The vehicle also features two LED lights in the loading area and up to 16 anchoring points⁽²⁾.

up to 16 anchoring points, 270° opening rear doors and two LED lights in the loading area⁽²⁾

(1) on the L2 version.

(2) optional.

take your office with you

Equipped with a mobile office layout, Renault Traffic Van has everything you need: its wide central seat folds down so you can set a tablet, a computer or even its integrated A4 document holder.

mobile office: back of the central folding seat designed to hold your folders or computer

Comfort is guaranteed with its lumbar-adjustable front seats. It also offers the best storage volume for a vehicle in its category: 88 litres in the passenger compartment.

storage under the bench seat

With generous storage in the doors, a drawer beneath the bench seat and wide cupholders, everything can be easily organised!

integrated connectivity

Customise your driving experience and make the most of the easy link* system through the 8" central screen; you can also connect your smartphone with wireless mirroring via Bluetooth®, Android Auto™ or Apple Carplay™.

On board, the easy link system incorporates numerous applications:

- TomTom Services, the best of connected navigation with automatic updating of your route, notification of danger zones and fuel prices, and location of charging stations*.
- Google address search, to find a specific destination or point of interest only with keywords*.
- wireless mirroring, to enjoy your playlists and favourite applications.

The My Renault app helps you get the most out of your Traffic E-Tech 100% electric including:

- display of remaining driving range.
- display of remaining charging time until full charge and notification when charging has ended.
- charge scheduling.
- setting of the passenger compartment's temperature.
- charging planning and location of nearby charging stations.

*EasyLink navigation is optional

easy to charge

You have access to a broad range of customised solutions for charging at work, on the road or at home.

New Renault Traffic Van E-Tech 100% electric is delivered with a mode 3 cable that can be used with a domestic or public charging station.

charging at work, at home or on the road

Its easy to charge and manage your energy costs with **Mobilize Power Solutions** all-encompassing charging services and products - from fitting your convenient home charger to installing your own workplace charging infrastructure, through to accessing charging stations enroute.

What's more, **Mobilize Manager**, a software management platform provides visibility of all charging sessions and charge points, and can enable drivers to simply expense energy used for business miles whether they charge at home, on the road or at work.

To find out the best way to charge your All New Renault Traffic van E-Tech 100% electric, contact Mobilize Power Solutions on business@mobilize.com.

effortless charging

With Renault's clever **MY Renault app**, you can schedule charging sessions and view battery status from your mobile.

05. advanced driver-assistance systems

10 advanced driver-assistance systems

As part of the human first program, New Renault Traffic Van E-Tech comprises 10 systems based on advanced technology to ensure your safety and that of your passengers.

"zoning" function
For independently locking or unlocking either the front doors or the loading area.

airbags
Front and side airbags protect the driver and passengers against violent impacts.

adaptive cruise control
This system helps you maintain a safe distance between you and the vehicle in front of you while driving. It activates the brakes when the vehicle in front gets too close, and the accelerator when the road is clear again.

lane departure warning
The system informs the driver of any unintended crossing of a solid or broken line, using a camera located on the windscreen, behind the rear-view mirror.

speeding alert with road sign recognition
This system informs you of speed limits via the instrument panel and alerts you if you exceed the speed limit thanks to a camera positioned at the top of the windscreen (optional).

active emergency braking system
This system detects vehicles, cyclists and pedestrians to the side or in front, then stops the vehicle in the event of any danger. Driving in the city has never been so safe, day or night.

blind spot warning
Enabled at speeds over 15 km/h, this system uses warning lights to alert you to the presence of vehicles that are not visible in your field of vision (optional).

parking sensors
Radar sensors facilitate your manoeuvres by warning you, through audio and visual signals, about any surrounding obstacles.

driver attention and drowsiness warning
This function analyses your behaviour and warns you of any risk of fatigue in the event of inappropriate steering wheel movements, for example. The warning then recommends you take a break with a visual and audible message on the instrument panel.

automatic main beam headlight activation
This system works using a camera positioned at the top of the windscreen. The camera analyses the light flows based on lighting and traffic conditions (optional).

- driver-assistance and safety systems as standard**
- intelligent speed assist which includes traffic sign recognition and overspeed prevention
 - active emergency braking system
 - lane departure warning
 - driver and passenger airbags
 - rear parking sensors
 - driver attention and drowsiness alert

- park assist systems**
- front and rear parking sensors
 - "zoning" function

accessories

roof rack, walkway and a ladder

Fit your All new Renault Trafic Van with an aluminium roof rack that can carry loads of nearly 150 kg. Add a walkway and a ladder and it will become a must-have for all your journeys.

standard towbar

Opt for a standard towbar on your All new Renault Trafic Van. Delivered without a ball joint, you can choose from our comprehensive range of ball joints and adapt it to meet your needs.

side steps

Facilitates entry to and exit from the vehicle. Facilitates the handling of cargo on the roof. Essential style-statement accessory emphasising the vehicle's style.

20V-220V converter

Need to charge your portable electronic devices during an intense day?
Need to connect up a spotlight to illuminate the area you are working in?
Then choose the 20V-220V converter and make life simpler for yourself - it's fully versatile and can be discreetly integrated.

Trafic rubber floor mats

Keep your vehicle's passenger compartment clean day after day, construction after construction, delivery after delivery. Go for these ultra-resistant floor mats that are easy to install and clean.

the human first program is a comprehensive safety programme developed by Renault in cooperation with researchers, experts and firefighters.

as road safety concerns all road users, whether pedestrians, cyclists or motorists, the human first program by Renault aims to:

1. prevent accidents by developing safety equipment and advanced driver-assistance and safety systems

up to 36 advanced driver-assistance systems / more than 60 pieces of safety equipment, up to 7 airbags, child seats (Isofix), Renault Fixe4sure solution / more than 2,000 safety-related patents filed since 1970

2. manage accidents by drawing on innovations developed with firefighters

QRescue/Fireman Access / more than 5,000 firefighters trained in the past 10 years in 17 countries around the world / approximately 600 cars donated per year for fire-service training

3. reduce the number of accidents and their severity by investing heavily in R&D

safety score/safety coach/connected services/big data/artificial intelligence systems and cybersecurity

Renault services

3 years warranty

Your vehicle is covered by a warranty package for up to 3 years from date of first registration (unlimited mileage during the first 24 months, followed by a further 1 year limited to a total mileage of 100,000). Your Renault Dealer is able to repair or replace without charge, parts that are found to have a material or assembly defect that is recognised by Renault. The paintwork warranty runs for 3 years and the anti-corrosion warranty for 12 years.

For Warranty Terms and Conditions please visit www.renault.co.uk/warranty

3 years Renault assistance

Should you need it, we'll provide emergency roadside repairs or tow you to the nearest Renault Dealer. This service is available 24 hours a day and is provided for 36 months from the date of first registration (unlimited mileage for first 24 months, then limited to a total of 100,000 miles or 3 years, whichever comes first). Assistance is provided within the UK & Northern Ireland only at roadside, home and includes national recovery and onward travel. Assistance applies to mechanical or electrical defects which are covered by warranty.

For Renault Assistance and Terms and Conditions please visit www.renault.co.uk/assistance

LCV service plans & extended warranties

Renault's LCV Service Plans are the ultimate package to provide care free servicing for your new Renault LCV. It really is the hassle free way to take care of your Renault and benefits from;

- Inflation Proof Servicing - You know exactly what you'll pay and there are no hidden costs
- Peace of Mind - No matter where life takes you, we'll be there in over 5000 workshops across Europe
- Renault Expertise & Quality - Our highly trained technicians know your Renault inside out

The Renault LCV Service Plan contains Renault services in-line with the manufacturer's service schedule, plus comes with a complimentary vehicle safety check to ensure your Renault is in the best condition possible.

Renault LCV Extended Warranty enhancements also available. Refer to the Price Guide for more details.

service intervals

24,000 miles / 2 years

Renault Network Services

No-one is better placed than Renault to maintain, fit and repair your Renault, fast. The Renault Minute (maintenance and repair with no appointment necessary) and Renault Rapide Bodycare (bumper scuffs, dings and dents, windscreen, stone chips and interior repairs...) services deliver the highest level of repair and maintenance and offer a full year's guarantee on Original Renault Parts. And don't forget to have a look at our wide range of additional equipment and accessories!

Renault iCare
