

## Easy Electric Life

Electric mobility does not have to be more complicated than fuel-powered vehicles.

Far from it, electric power comes as second nature in most areas of our lives - have you ever thought about filling up your smartphone with fuel? Your van does not need to be any different from your phone, simply put it on charge.

## Renault PRO+ Electric Vans

Electric isn't just the future, it's right now. That's why our customers have been driving electric vehicles since 2011, and we've since developed the largest model range of electric LCVs in the UK. For you and your business, the result is key. So you'll be pleased to hear that with a Renault PRO+ electric van, you could make significant savings compared to running a diesel or petrol van. Plus, with over 35,000 charging points in the UK, isn't it time for you to join the electric revolution?

## It's in our nature

Through supplying the Eden Project in Cornwall with a fleet of 3 Zoes, 13 Kangoo E-Tech electric Vans and 4 Twizys, we are supporting them in their mission to connect people with each other and the living world, exploring how we can work together towards a better future.
