# Renault Conversions MASTER HORSE BOX

Tailor-Made Solutions for your Business

# Adapting to your profession

The MASTER Van has been specifically designed to adapt to the most demanding requirements. It is efficient with space, boasting load volumes of up to 17m<sup>3</sup> and payloads of up to 1,551kg (3.5T versions) and 2,061kg (4.5T versions)<sup>^</sup>. It is practical, with a range of factory conversions to fit your needs, including Tippers and Luton vans. It is versatile, Platform and Chassis Cab versions can be converted into a vast array of other products, such as wheelchair access vehicles, minibuses, refrigerated vans and ambulances. It also makes your working day easier and safer, with electronic stability control (ESC) now standard on every version of the Master featuring Hill Start Assist, Grip Xtend and Trailer Swing Assist.

<sup>^</sup>Payload equals the Maximum Operating Mass (Gross Vehicle Mass or GVW) less the Kerb Mass. Kerb Mass is the weight of the complete vehicle including coolant, oil, a 90% full fuel tank, a 100% full AdBlue tank, spare wheel and jack, but excluding driver and crew. All Kerb Masses, and therefore Payloads quoted are subject to a 5% manufacturing tolerance and are based on the base level model. Any additional equipment added (options or accessories), or the selection of a higher trim level, could result in a higher Kerb Mass and a reduced Payload, and may increase CO<sub>2</sub> and decrease MPG figures.

# Renault Tailor-Made Conversions

The Bloomfields MASTER Horse Box adaptation is part of Renault's Tailor-Made Conversion range.

The range comprises of popular specialist vehicle types such as Refrigerated Vans, Minibuses, Grounds Maintenance Vehicles and Welfare vehicles.

The Tailor-Made range offers a standard specification based on the expert collaboration between Renault and our accredited converter partners.

The specifications have been developed to meet common requirements however, they can be adapted to suit specific customer requirements, providing a truly Tailor-Made solution.

Our Tailor-Made range has been developed in partnership exclusively with converters who have received Renault approval after being assessed on their technical and quality standards by a dedicated team from Renault. A list of these can be found at [www.conversions.renault.co.uk](http://www.conversions.renault.co.uk)

# Powerful, clever and dynamic

Bloomfields offer a range of 3.5T vehicles based on the Renault MASTER Platform Cab, from their popular Bloomfields ONE to the Eventer Compact with luxury living facilities.

Always striving to stay ahead with their innovation, Bloomfields have a dedicated research & development department who work tirelessly to create new innovative features and test new materials. With their market leading strength tested bulkhead setting them apart in the industry. Used throughout Europe by amateurs and professionals alike, Bloomfields are renowned for their strength, safety and build quality.

Bloomfields are renowned for their bespoke finishes. All horseboxes are built to order and there are rarely 2 alike. Each customer is invited to work with Bloomfields' in house designers and technicians to ensure that every horsebox meets each individual's needs and requirements.

Bloomfields' in house spray team mask and spray every design by hand. A one colour metallic finish is included in the Legacy, Eventer and Professional range but customers have a choice to have their horseboxes personalised with a custom spray design.\*

\*Personalised spray comes at an additional cost.
