

## RENAULT INDIA TO HAVE AN EXCITING DISPLAY AT AUTO EXPO 2020

To **showcase complete India range** with product and technological advancement strategies

A dedicated **‘Electric Corner’** and **global concepts** highlighting **Renault’s focus on Future Mobility**

The Renault Pavilion will also have several customer engagement activities and performances which demonstrate the brand DNA – **‘Passion For Life’**

**New Delhi, January 30, 2020:** Renault, the number one European brand in India, will have an exciting display of 12 cars and 2 engines at the biennial Auto Expo 2020, which will be held at the India Expo Mart, Greater Noida from February 5-12, 2020. The Renault Pavilion will be in Hall No. 10; Stall- N3.

The introduction of new products - Triber, Kwid and Duster, backed by a well calibrated business strategy, made Renault the only brand to grow in 2019, with a surge of 7.9%. Renault will showcase its complete India range and share its roadmap to keep developing its India product portfolio. This will be in the form of design, technological and strategic advancements, which are planned while keeping in mind evolving and discerning Indian customer needs.

Being a global leader in electric vehicles, the Renault Pavilion will also have an exclusive ‘Electric Corner’ highlighting Renault’s focus on Future Mobility. This demonstrates Renault’s strong intentions to play a key role in the transformation of the Indian automotive industry. To this end, Renault will have a mix of production cars and global concepts including its F1 racing concept, highlighting Renault’s penchant for cutting-edge technology and breakthrough innovations.

The Renault Pavilion will also host exciting customer-engagement activities and modern entertainment acts in its booth which will perfectly complement its contemporary designed Pavilion.

### **ABOUT RENAULT**

Renault India Pvt. Ltd. is a fully owned subsidiary of Renault S.A.S. France. Renault India cars are manufactured in the manufacturing facility located in Oragadam, Chennai, with a capacity of 480,000 units per annum.
